

# KryptoMax® Detention Utility Cart

Model: KM-CAR-362436

[www.KryptoMax.com](http://www.KryptoMax.com)

## Description:

KryptoMax® Detention utility carts are designed for heavy use and built to provide a cleaner and stronger alternative to flimsy molded plastic carts. The 304 stainless steel material provides unsurpassed strength, helps deter the growth of bacteria, and is highly corrosion resistant. Fully welded, single piece construction means no broken parts, warping, or cracking like cheaper materials. Designed primarily for kitchen applications, the double pan design allows for separate storage of food, jars and utensils on top and bottom compartments. Heavy-Duty casters provide a smooth ride during transport, and the two rear casters have locks and swivel for better control. Some options available include drain plugs or perforated floors for easy draining after cleaning and rinsing. These carts are also available in an open design format. These carts are available in multiple sizes and depths.

The KryptoMax® line of products by G2 Automated Technologies, LLC, offers a wide variety of solutions for correctional facilities, detention centers, jails, and prisons. These solutions include intensive-use accessories, fixtures, furniture, and replacement parts. If you require an individual item to replace on an existing product, we can provide it for you. We also offer a wide variety of mounting hardware, concrete anchors, tamper proof hardware, and tools, to help with installation of intensive use detention furniture.

## Specifications:

DIMENSIONS: 36" D x 24" W x 36" H

Material: 16 Ga. 304 Stainless Steel

12 Dividers per level

Stainless Steel Push Handles

Heavy Duty Swivel Casters (2 Locking)
