

# KryptoMax® Pass-Through Evidence Lockers

Model: KM-PT-EV-121020

www.KryptoMax.com

## Description:

KryptoMax® evidence pass-through lockers allow passing of items into the evidence room from an unsecured area. The overall locker has 4 individually keyed compartments, with a full size latch controlled outer door on the secure evidence room side. The pass-through features heavy-duty construction designed for intensive use, is made of heavy 16 gauge stainless steel, and is TIG welded for strength. Additional sizes and custom configurations available.

The KryptoMax® line of products by G2 Automated Technologies, LLC, offers a wide variety of solutions for correctional facilities, detention centers, jails, and prisons. These solutions include intensive-use accessories, fixtures, furniture, and replacement parts. If you require an individual item to replace on an existing product, we can provide it for you. We also offer a wide variety of mounting hardware, concrete anchors, tamper proof hardware, and tools, to help with installation of intensive use detention furniture.
