

KryptoMax® Wall Mount Detention Bench

Model: KM-FWB-72in
www.KryptoMax.com

Description:

KryptoMax® wall mount detention benches are built for use in security areas such as prisons, jails and other high security intensive use detention environments where limited floor space is an issue. The bench tops are made of 12 Gauge Stainless Steel with a 1 ½” flange and a #3 brushed finish. Our one piece design minimizes welds and includes pre-drilled mounting hole. Handcuff rings are optional and are made of Stainless Steel 3/8” rod and solidly welded to the front or bottom of the bench if desired. These wall mount benches are available in multiple sizes and depths.

The KryptoMax® line of products by G2 Automated Technologies, LLC, offers a wide variety of solutions for correctional facilities, detention centers, jails, and prisons. These solutions include intensive-use accessories, fixtures, furniture, and replacement parts. If you require an individual item to replace on an existing product, we can provide it for you. We also offer a wide variety of mounting hardware, concrete anchors, tamper proof hardware, and tools, to help with installation of intensive use detention furniture.
